Accounts Payable Enhancements

With this release we are adding enhancements to the Accounts Payable module. These changes will be available **Wednesday, May 27th.**

Accounts Payable

This release focuses on providing a more user-friendly experience for searching and viewing data in the Accounts Payable module. This release includes:

- Mailing Address filter for Viewing Vendors
- Invoice Amount filter for Viewing Invoices
- Display PO Number for Viewing Invoices
- User Sorting saved when Viewing Invoices

To read more about each change, please refer to our [User Guide.](#)
