## Search Functionality Updates

Based on feedback received from our customers, we have made some changes to the search functionality to produce more desired results. Using quotations will still produce an exact match but we've improved search logic to more closely

match the search criteria entered in the search field when quotations are not used.

These Gender Identity and Search function updates will be available for all associations using Daxko Engage on **Tuesday, June 28**. Please contact [support@daxko.com](mailto:support@daxko.com) if you have any questions.
