

# Daxko Engage Release: Reassign Tasks in Bulk + No-Send Schedules Coming Soon

This Daxko Engage release includes a powerful task management update that's been highly requested by many customers over the past several months. Check out more details further below about our No-Send Schedules feature coming soon.

## Reassign Tasks in Bulk

Reassigning tasks is a necessary function in Daxko Engage that allows Administrators to assign tasks from one user to another User or Team using the Edit button. We are pleased to release the ability for Administrators to perform this action in bulk. This new function is especially handy in the event of staffing changes.

From the Activity Page for another User, Administrators will see a new button labeled **Reassign Tasks**. From there, notice the options to reassign all tasks to another User or Team. Details for the total number of tasks being reassigned is highlighted below the Search field.

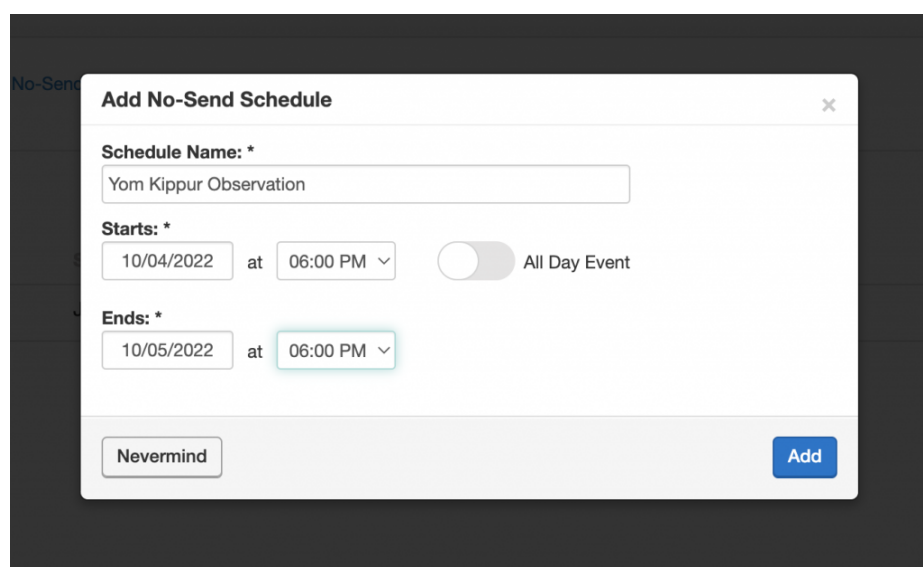

The screenshot shows a modal window titled "Reassign Tasks". Inside, there is a section "Reassign Tasks To:" with two radio button options: "User" (which is selected) and "Team". Below these options is a text input field with the placeholder text "Start typing user's name here.". Under the input field, it says "You are about to reassign 6 tasks.". At the bottom of the modal, there are two buttons: "Nevermind" on the left and "Reassign" on the right.

Reassign Tasks in Bulk will be available for all associations using Daxko Engage on **Friday, May 6**. Please contact [support@daxko.com](mailto:support@daxko.com) if you have any questions.

## Coming Soon: No-Send Schedules

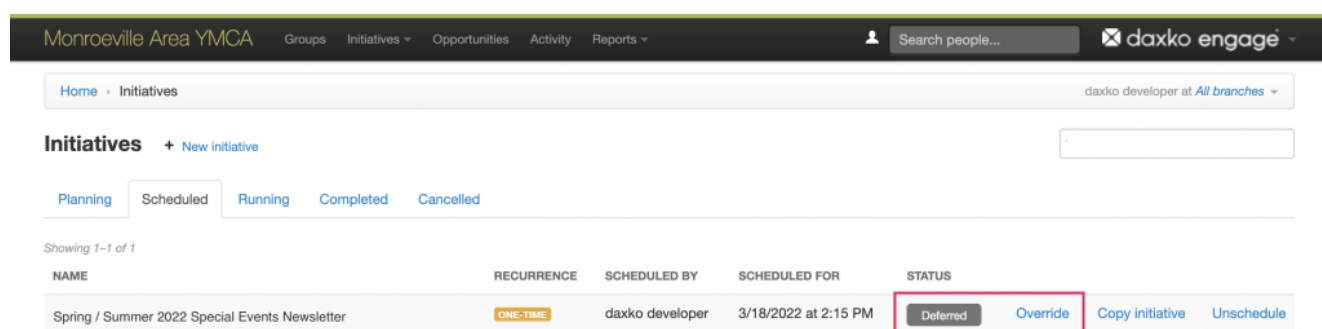

Setting up automated initiatives can be a huge efficiency gain for associations using Daxko Engage, as well as a great way to ensure that members receive engagement touchpoints at appropriate times. However, we also understand that there are occasionally holidays and other special events when associations do not want emails or text messages to send to members or the community.

Because of this need, we are excited to share that we will soon introduce a new ability to create **No-Send Schedules**, periods during which communication from initiatives is paused for a short time and deferred until later.

The screenshot shows a modal window titled "Add No-Send Schedule" with a close button (X) in the top right corner. The form contains the following fields and controls:

- Schedule Name: \*** (required): A text input field containing "Yom Kippur Observation".
- Starts: \*** (required): A date and time selector showing "10/04/2022" at "06:00 PM". To the right is a toggle switch labeled "All Day Event", which is currently turned off.
- Ends: \*** (required): A date and time selector showing "10/05/2022" at "06:00 PM".
- At the bottom left is a "Nevermind" button.
- At the bottom right is a blue "Add" button.

The screenshot shows the Daxko Engage web interface for the "Monroeville Area YMCA". The top navigation bar includes links for Groups, Initiatives, Opportunities, Activity, and Reports. A search bar and the "daxko engage" logo are also present. The main content area is titled "Initiatives" and includes a "+ New Initiative" button and a search input field. Below this are tabs for "Planning", "Scheduled", "Running", "Completed", and "Cancelled". The "Planning" tab is selected. A table lists initiatives, with the first one being "Spring / Summer 2022 Special Events Newsletter". The table has columns for NAME, RECURRENCE, SCHEDULED BY, SCHEDULED FOR, and STATUS. The "STATUS" column for the first initiative shows a "Deferred" button, which is highlighted with a red box, along with "Override", "Copy initiative", and "Unschedule" buttons.

NAME	RECURRENCE	SCHEDULED BY	SCHEDULED FOR	STATUS
Spring / Summer 2022 Special Events Newsletter	ONE-TIME	daxko developer	3/18/2022 at 2:15 PM	Deferred Override Copy initiative Unschedule

We already have early adopter associations using No-Send Schedules, and we are planning to release this functionality to all associations by the end of May 2022. If your association is interested in taking a deeper look at this before then, please contact the [product team](#).

## Project Thrive: “Ask the Expert” Sessions

Last week, the Daxko Team kicked off a new webinar series called **Project Thrive**. During our “Ask the Expert” sessions, our team of product experts hold office hours to cover the basics of Daxko solutions AND give you time to ask questions. We’ll be offering new “Ask the Expert” sessions every week, so stay tuned for more...

Check out upcoming and past sessions [here](#).

### Join Us for a 2022 Release Review

Can you believe it’s already May?! If your team has fallen a little behind on this year’s releases, join our Professional Services team to review Daxko Operations, Daxko Accounting, and Daxko Engage enhancements made during the 1st Quarter of 2022 (January, February, and March). [Register here](#).
