Daxko Operations: Community Events Available Now!

With this week's Daxko Operations release, new **Community Events** functionality is available in Live sites for all organizations. Feedback from early adopters has been great so far, so whether in your Training or Live site, we encourage you to check this out if you haven't already. Read before for more details!

Also included in this release are a few page updates in our continued effort to improve the usability of Daxko Operations.

The below enhancements and fixes will be available for all customers on **Wednesday, October 25**.

Community Events: Now in Live Sites!

The new Community Events tool in Daxko Operations is designed to be an all-inone solution that saves staff time when crafting events and selling tickets. Community Events allows users to users can create, manage, and sell event tickets in one place.

Program Scholarships

Fixed Issues

This release includes 10 fixed issues, including:

- Fix for issue when copying multiple program sessions where time wasn't specified
- Fix for issue not allowing same-day package appointments
- Show updated pledge schedule date on donation history
- Allow for same-day alerts
- Show "Addressee" and "Salutation" for monthly recurring donations

The above enhancements and fixes will be available for all customers on **Wednesday**, **October 25**. If you have any questions, please contact <u>support@daxko.com</u>.
