

# Daxko Operations: Middle Name for Online Joins, Page Design Updates + More

This week's Daxko Operations release includes a handful of enhancements based on user feedback, as well as page design updates to improve overall usability:

- Middle name in the online join form
- Page design updates
- Trusted Screening update to include aliases

Check out the blog below for the full details!

---

## Middle Name for Online Join

We have learned from associations that being able to collect member middle name as part of the standard online join form would go a long way in helping you maintain better member data, reduce the amount of duplicates in your system, as well as improve the offender screening process through services like our new [Trusted Screening integration](#).

In support of all that, we're excited to include **Middle Name** as an optional field in the standard online membership join form.

## Primary Adult

Email

Password

Your password needs to:

- Be at least 7 characters long.
- Include both lower and upper case characters.
- Include at least 1 number.

Confirm Password

### Personal Information of Primary Adult

First Name

Middle Name

Last Name

Gender Identity

Birth Date

The middle name field will be available in online join forms for all organizations in your Training sites and Live sites on **Wednesday, August 16.**

## Page updates: New Design DNA

This release includes design updates to several pages in Daxko Operations. As you have noticed over the past year, we have been making usability updates to many pages across Daxko Operations. With this release, we're continuing that with additional design updates, so throughout the system you'll notice a refreshed look and feel to buttons, links, and other elements. However, core functionality hasn't changed with these updates.

Below are a few of the most commonly used pages being updated:

- Shift Close-out
- Refunds Report
- Pending Batch
- Scheduled Payments
- Childcare Tax Statement
- Child Care Registration Details

## Trusted Screening Enhancements: “Aliases” Field

A few months ago, we released new the [Trusted Screening integration](#) to make the offender screening process safer and more streamlined for your organization. With this release, we’re adding an **Aliases** field to the offender record so your staff can more easily determine matches.

The screenshot shows the 'Compare People' dialog in the Galaxy system. The dialog is divided into two columns: 'Member' and 'Offender'. The Member column shows a placeholder for a photo and the following details: Name: Robert R Williams, Preferred Name: N/A, Date of Birth: 9/26/1956, Address: 510 West 28th Street, Gender: Male, Race: African American/Black. The Offender column shows a photo of a man and the following details: Name: Robert Edwards Williams, Aliases: Bobby Williams (highlighted with a red box), Date of Birth: N/A, Address: [redacted], Gender: Male, Race: White, Physical Features: height: 5'6", weight: 180 lbs, [redacted]. At the bottom of the dialog are buttons for 'NOT MATCH', 'MATCH', 'PREVIOUS', 'CANCEL', and 'NEXT'. The background shows a list of offenders with columns for Name, Address, and Hits.

Name	Address	Hits
Robert R Williams	510 West 28th Street	1
Robert Edwards Williams	[redacted]	2
Bobby Williams	[redacted]	1
[redacted]	[redacted]	3
[redacted]	[redacted]	2
[redacted]	[redacted]	1
[redacted]	[redacted]	2
