

Daxko Operations: The GroupEx PRO Integration is Here!

This release, our last major release of 2022 for Daxko Operations, includes an exciting new integration with GroupEx PRO, creating a seamless experience for members searching, selecting, and managing their group exercise participation. Associations using GroupEx PRO now have the tools needed to vastly streamline the member experience. See below for the full user guide and other resources to help your team to make the most of this integration.

In addition to this, we also have a few new features and enhancements to fundraising and programs included with this release. Check those out below!

GroupEx PRO + Daxko Operations Integration

We know your team needs to own the end-to-end member experience. Through the new Daxko Operations and GroupEx PRO (GXP) integration, you can now provide members with a single set of login credentials for all areas of your online member experience.

The screenshot displays the Daxko Operations website interface, featuring the 'the Y' logo and the 'Star Wars Galaxy' theme. The navigation bar includes 'Welcome, Guest', 'Programs', 'Group Ex', 'Login', and 'Sign Up'. A sidebar on the left allows filtering by Branch (Ahch-To), Instructor, Areas, Class Name, and Categories. The main content area, titled 'GXP Schedule', shows a calendar for December with the 5th highlighted. Below the calendar, a table lists classes for the 5th:

Class Name	Branch	Time	Instructor	Availability
Demo Class 123	Ahch-To	All Day	Abebbp Ebrerr	Join Class
Demo Class 123	Ahch-To	1:15 AM - 2:45 AM	Crat Ercrerr	Reserve 6 of 6 open
Demo Class 123	Ahch-To	2:15 AM - 2:45 AM	Staff	Reserve 3 of 3 open
RPM	Ahch-To	6:00 AM - 6:35 AM	Crat Ercrerr	Not Reservable

When this integration is live, active members will use their Daxko Operations

online account credentials to book GXP class reservations through your website, Daxko Mobile or Community Connect member apps alongside Program Registrations and other activities they manage through their online account.

Plus, Welcome Center or Front Desk staff will also be able to view, edit, cancel, and reserve GXP classes for active members from inside of Daxko Operations. Our team is thrilled to provide this integration, and we hope your team is excited to provide this for your members!

Other Enhancements and Updates

Pledge Amount Summary: Unit Level Giving History

This release includes updates to the Fundraising Pledge Amount Summary Report. The report features a new page design as well as new **group by unit** functionality. Now staff users can easily access any pledges tied to the same membership unit for a specific campaign or date range. Check out the user guide [here](#).

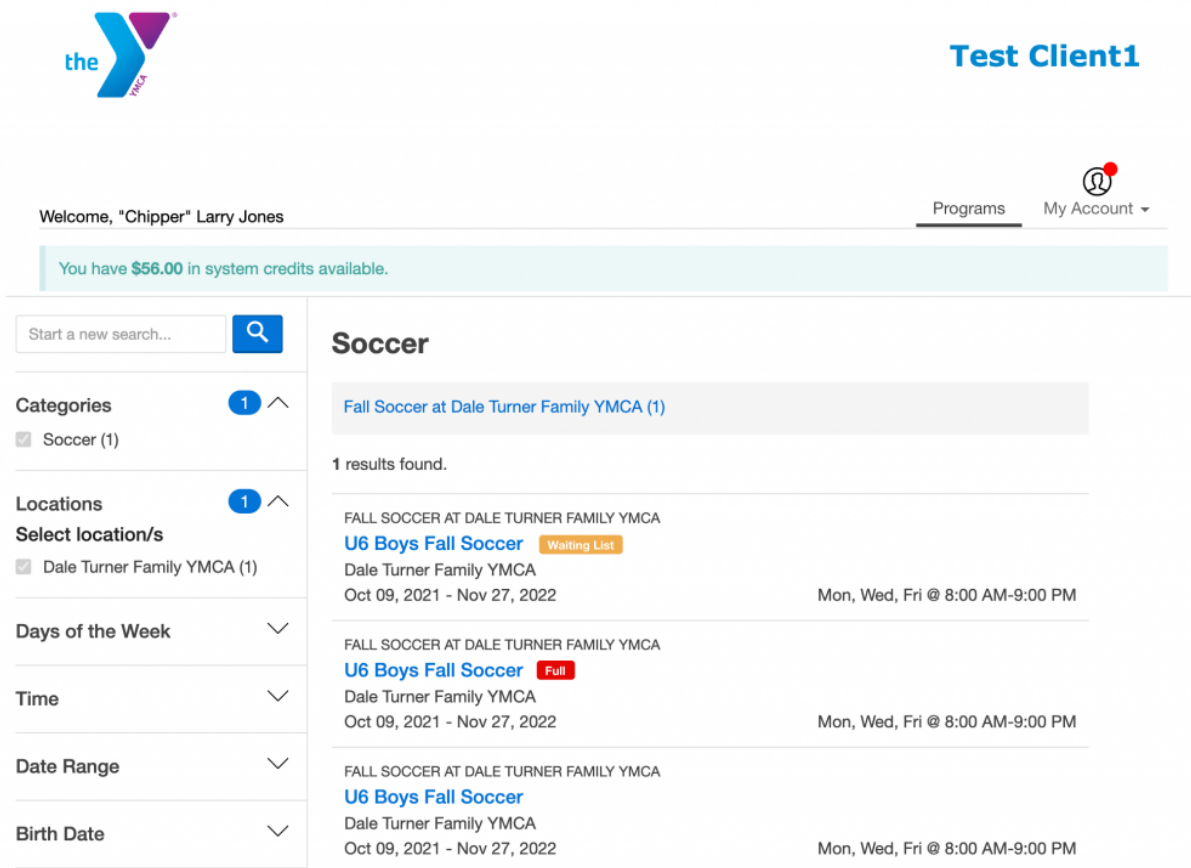

Q&A Rosters for Program Packages

Previously, only standard programs and childcare programs provided a summary of participant Q&A responses in this format. Now, users can easily download and view Q&A responses for package programs as well. Check out the user guide [here](#).

Online Program Registration - View Full or Waitlisted Programs

This release includes new labels that will be displayed for standard programs and camp programs with sessions that are **full** or sessions with a **waiting list**. Now, when members browse for a program online, they can easily identify which programs have capacity or a waiting list.

- The **Full** label will be visible when all segments in the program are full and there is not a waiting list enabled.
- The **Waiting List** label will be visible when all segments in a program are full and there is at least one segment with a waiting list.
- No label will show if at least one segment in a program has spots available.
