

Daxko Operations: Trusted Screening Enhancements

With this Daxko Operations release, we are enhancing new [Trusted Screening](#) functionality by providing more information about birth dates for potential offenders, allowing your staff to make better decisions during the screening process.

Plus, we've updated the design of a couple more pages: **Journal Account Details** and **Apply Discount Group**.

Read the full release blog below for additional details. These updates will be available on **Wednesday, September 13**.

Trusted Screening: Birth Date Updates

The security of your facilities is crucial, and your teams work diligently to create a safe and welcoming environment for the communities you serve. Daxko is committed to providing solutions to help you do that. In working alongside our partner **Raptor Technologies**, we have been able to provide more detail about offender dates of birth.

Previously, many offender records showed as “**N/A**”, but now we are able to provide not only the actual **date of birth** if it's present (ex: 4/21/1978) but also **year of birth**. And in the event the offender record has only an **age**, Daxko Operations will display two possible birth years.
